

Care of Sina Pearson Textiles Patio Stripe 286

No matter how soundly constructed an upholstery may be, it will not wear well if it is not cared for properly.

Most stains on Sunbrella® fabrics can be cleaned up with mild soap and water solution.

- Spot wash by sponging briskly with a solution of natural soap in lukewarm water.
- Rinse thoroughly with clean water to remove soap and air dry.
- For stubborn stains, use fabric spot remover. Follow the directions on the container.
- For removable cushion covers, machine wash in cold water with a mild soap, then air dry.
- Sunbrella acrylic does not promote mildew growth. However, mildew may grow on dirt and other foreign substances that are not removed from the fabric. To clean mildew stains, prepare a mild solution of one cup bleach and two capfuls of natural soap per gallon of water. Spray on entire area and allow to soak in. If necessary, scrub vigorously with a sponge or clean rag. Sponge thoroughly with clean water and air dry.
